[6.824](#) Spring 2021 Paper Questions

For each paper, your assignment is two-fold. Before the start of lecture discussing the paper:

- Submit your answer for each lecture's paper question via the [submission web site](#), and
- Submit your own question about the paper (e.g., what you find most confusing about the paper or the paper's general context/problem). You cannot use the question below. To the extent possible, during lecture we will try to answer questions submitted the evening before.

You can also upload your questions and answers using curl:

```
## Answer goes into lecN.txt
$ curl -F file=@lec2.txt \
       -F key=XXXXXXXX \
       https://6824.scripts.mit.edu/2021/handin.py/upload
## Question goes into sqN.txt
$ curl -F file=@sq2.txt \
       -F key=XXXXXXXX \
       https://6824.scripts.mit.edu/2021/handin.py/upload
```

> **Lecture 8**
>
> The lecture today is an Q&A session about the last submitted lab (e.g., lab 1 or lab2A+B). Submit a question about the lab: for example, something you wondered about while doing the lab, something you didn't understand, or just anything.
